DETAILED ACTION

Response to Amendment

The reply filed on 9-26-2005 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): The applicants failed to reply to all of the grounds of rejection presented in the previous office action. 37 CFR 1.111 (b) clearly states that "The reply by the applicant or patent owner must be reduced to a writing which distinctly and specifically points out the supposed errors in the examiner's action and **must reply to every ground** of objection and rejection in the prior Office action.". (emphasis added) See 37 CFR 1.111. In the instant case the reply fails to address in any way or form rejections under 35 USC 112, second paragraph, and further, the reply fails to address rejection of claim 7 under 35 USC 103(a). Claim 7 was clearly included in the rejection, however, in the response the applicants rely on the limitations of claim 7 as distinguishing feature. The applicants should note that claims 1-6 presented in the application are in the "product-by-process" format and the claimed process steps are irrelevant to the patentability of the claimed product so long as the product disclosed in the art is the same as the product obtained by the claimed process. As discussed in the previous office action, the product disclosed in the art appears to be the same as the claimed product and unexpected properties were not considered probative. The burden is on the applicants to provide conclusive evidence that the claimed product obtained by the claimed process steps is necessarily patentable distinguishable from the product disclosed in the prior art.

Art Unit: 1711

Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment. EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).
